

SAAS SUBSCRIPTION AGREEMENT

This sample contract is fictional and prepared for document-analysis testing only.

This SaaS Subscription Agreement is entered into between CloudLedger Inc. ("Supplier") and Alpine Retail GmbH ("Customer") as of 1 July 2026.

1. Subscription Services

Supplier grants Customer access to the CloudLedger platform for invoice automation, document storage, and analytics dashboards.

2. Subscription Fees

Customer shall pay EUR 24,000 annually in advance. Supplier may revise the price list, introduce new platform fees, or charge additional storage costs at any time with immediate effect.

3. Renewal

The subscription renews automatically for additional one-year terms unless Customer cancels through the online portal at least 120 days before the end of the then-current term. Supplier has no duty to notify Customer before renewal.

4. Changes to Terms

Supplier may amend this Agreement, the service description, security documentation, and support levels unilaterally by publishing an updated version on its website. Continued use of the platform constitutes acceptance.

5. Suspension and Termination

Supplier may suspend or terminate Customer's access immediately if Customer disputes an invoice, requests a chargeback, or uses a feature in a manner Supplier considers excessive.

6. Liability

Supplier's total liability shall be limited to the fees paid by Customer during the one month preceding the event giving rise to the claim.
